## Drug Policy

The aim of this policy is to encourage all learners to abstain from any drugs. (This excludes drugs which are medically prescribed). This forms part of the Code of Conduct for learners. Every learner and his/her parents/guardians are required to sign the Drug Policy as acknowledgement that they have read and understood it, and that they agree to abide by this policy.

1. The school does not tolerate
  - the use or possession of any illegal or prohibited substances.
  - the possession of drug-related equipment such as cigarettes, papers, pipes, etc.
  - the use of anabolic steroids and other performance-enhancing substances.
  - the inappropriate use of solvents, inhalants and similar agents.
  - the possession or consumption of alcohol and the smoking of tobacco.
2. Anybody found in possession of, or using, any of these substances either on school property, or when in school uniform, or when under the supervision of the school (e.g. boarding), or attending school-related functions, including sports outings and social events, will be subject to the disciplinary regulations as indicated in the learners Code of Conduct.
3. The results of such disciplinary action may include
  - the provision of support, including professional drug counseling.
  - order marks which may result in expulsion.
  - reporting the matter to the South African Police Service in the case of illegal substances.

Dealing in drugs or involving others in their use will normally result in a recommendation that the learner be expelled from school.

3. The school management understands that addiction is a problem, and that certain drug use may need support and treatment. Any learner who asks for, or is identified as needing assistance in coping with drug use, will be expected to attend appropriate counseling.
4. All approaches by students to any of the school staff will be treated with the utmost confidentiality.
